## BUREAU OF NAVIGATION

## BULLETIN

## NUMBER 247

PUBLISHED FOR THE PURPOSE OF DISSEMINATING  
GENERAL INFORMATION OF PROBABLE INTEREST TO  
THE SERVICE.

\*\*\*\*\*

### SCHOLARSHIP AT BABSON INSTITUTE.

The Navy Department has accepted a scholarship for a nine-months' course in Babson Institute, to begin 22 September 1937.

Lieut. (jg) Charles R. Almgren, (SC), U.S.N., has been selected for this course.

### WEARING OF MEDALS AND RIBBONS.

Article 251, Uniform Regulations, U.S.Navy, prescribes how medals and ribbons shall be worn, but due to certain plates being out of date some uncertainty exists in the service regarding the proper place for medals and ribbons.

Pending the issue of correct plates, the attention of all officers is invited to Article 251, which prescribes that medals and badges, except the Medal of Honor, as well as ribbons, shall be worn on the left breast. Minatures of medals, decorations, and ribbons shall be worn on the left breast and not on the coat lapel.

### NAVAL ACADEMY PREPARATORY SCHOOL.

The preliminary written examination of candidates for the Naval Academy Preparatory School, convening at the U. S. Naval Training Station, Norfolk, Va., on 1 November 1937, will be held on Friday, 30 July 1937.

Attention is invited to the following change in visual standards for candidates on admission to the Naval Academy:

"In order to reduce the large number of midshipmen having to be dropped for defective vision developing progressively while at the Naval Academy, all candidates for admission shall be, as part of the regular physical examination, refracted under a cycloplegic and those showing any degree of myopia or myopic astigmatism shall be considered not physically qualified for admission."

The attention of all commanding officers is particularly invited, however, to that part of the Bureau of Navigation Manual, Article D-6103(1)(d), which reads as follows:

"As the recommendation of the Board of Medical Officers is subject to review by the Bureau of Medicine and Surgery, the Commanding Officer's decision will not be based on the findings of that board."

Form N. Nav. 116 was revised in September, 1936, and the new cards have been forwarded to all ships. It will be noted that this new form calls for a record of previous schooling.

FITNESS REPORTS ON OFFICERS ASSIGNED TO AVIATION UNITS.

The Bureau recognizes the difficulties that confront commanding officers of ships and officers in charge of aviation units in connection with continuity of fitness reports of aviators, when such units are out of the ship to which assigned. It is, however, desired to again impress upon the service the difficulties to which the Bureau is subjected unless reporting officers insure that reporting periods are continuous and do not overlap.

SUBMISSION OF FITNESS REPORTS.

In connection with the times of submission of Fitness Reports, attention is invited to the fact that U.S.Navy Regulations, 1920, Art. 137(1) specifically defines the times at which routine reports shall be submitted, and that sub-paragraph 11 of the same Article outlines the occasions on which special reports shall be submitted. In any case where a reporting officer is of the opinion that the best interests of the Navy will be served by the submission of a non-routine fitness report immediately prior to the date of convening of a selection board, such a report will be accepted.

BUREAU OF NAVIGATION CIRCULAR LETTER NO. 11-37, OF 16 MARCH 1937, WITH REGARD TO REPORTS ON FITNESS OF OFFICERS.

It has come to the attention of the Bureau that there is some misunderstanding relative to two parts of Bureau of Navigation Circular Letter No. 11-37, of 16 March 1937, on the subject of fitness reports, and the following clarifying comments are made:

- (a) On page 2 of Bureau of Navigation Circular Letter No. 11-37 appears the following:

"Under 'Regular duties' and 'Additional duties,' after the duties performed indicate the number of months by figures in parenthesis."

The time to be indicated should be only that covered by the period of the fitness report. In this connection, attention is invited to U.S.Navy Regulations, 1920, Art. 137(7), which reads in part as follows:

"The marks and comment shall cover only the period of time stated in the reports."

- (b) In N.Nav.-443-A (pink form of Report on Fitness) there is neither a paragraph 7, nor is there, under paragraph 8, the entry "ship handling." In view of the fact that this is a shore duty form, specific explanation of the absence of these notations was considered unnecessary in Circular Letter No. 11-37.

### HOSPITAL CORPS SCHOOL.

The Bureau is desirous of obtaining requests from non-rated men for transfer to the Hospital Corps School, San Diego, California, for the basic course of instruction.

To be eligible for this instruction men should have two or more years of obligated service upon completion of course of instruction and be qualified in accordance with Article D-5243(1), Bureau of Navigation Manual, and be recommended by their commanding officer.

### TRAINING COURSES.

Navy training courses, instructions for use in preparation for the rating of Torpedoman First Class and Chief Torpedoman, and for the rating of Water Tender First Class and Chief Water Tender, are now available for distribution.

### INSTRUCTIONS IN MAINTENANCE AND CARE OF GYRO COMPASSES.

Many new ships are now being commissioned with the newest and latest type of gyro compass. This equipment is quite different from that used on many of the older ships, and the gyro personnel and electricians' mates in general on board ship should refresh their knowledge.

The gyro compass schools at the Navy Yard, New York, and at the Training Station, San Diego, are prepared to give extra instructions at any time in the particular type of compass with which any ship is fitted.

This instruction is necessary for the proper maintenance and care of the compass in service as an adjunct to the Navigation and Gunnery Departments of the ship. It is requested that all commanding officers of ships building have their electrical or gyro personnel receive instruction in the type of compass they are about to operate.

### WAITING LISTS - ADVANCEMENT TO CHIEF PETTY OFFICER.

The regrading of the examination papers of the candidates for chief petty officer, who took the examination on 21 December 1936, has been completed. Insufficient candidates passed in all subjects. It was, therefore, necessary to adopt a special system of grading papers. Three classes were established as follows: Class 1 (PASSED - passed in all three major subheads, i.e., in (a) - Qualifications for the individual rating (BuNav. Manual Article D-5207-D-5244), (b) - Special marks for petty officer and chief petty officer (D-5206 or D-5215), (c) - Special mark for chief petty officer (D-5202). Class 11 (SPECIAL) - passed in two of the above major subheads with passing mark on the examination as a whole. Class 111 (FAILURE).

WAITING LISTS - ADVANCEMENT TO CHIEF PETTY OFFICER (CONT'D).

Within the foregoing groups standings were established on the following basis:

CLASS I - PASSED (Passed in all major subheads)

- (a) No failures in minor subheads-averaged accd. to multiple.
- (b) One failure in minor subheads " " " "
- (c) Two failures in minor subheads " " " "
- (d) Three failures in minor subheads " " " "  
etc.

CLASS II - SPECIALS (Passed two major subheads,  
with passing mark on examination as a whole)

- (a) 2.4 - 2.49 in major subhead in which failure occurred.
- (b) 2.3 - 2.39 in major subhead in which failure occurred.
- (c) 2.2 - 2.29 in major subhead in which failure occurred.
- (d) 2.1 - 2.19 in major subhead in which failure occurred.
- (e) 2.0 - 2.09 in major subhead in which failure occurred.

Within the above groups, standings were arranged in accordance with multiples.

CLASS III - FAILURES

- (1) Failed examination as a whole.
- (2) Less than 2.0 in a major subhead.
- (3) Failed in two major subheads.

EXPLANATION OF CLASSIFICATION OF CANDIDATES.

(a) All candidates in Class I were placed on the waiting list ahead of all candidates in Class II. Also all candidates in Class I(a) were placed ahead of candidates in II(b), II(c), etc. The same rule was applied to candidates in II(b), II(c), etc. Within the above classifications candidates were arranged in accordance with their multiples.

(b) No failures were placed on the waiting list.

Waiting lists for advancement have been made out in accordance with expected requirements for one year in accordance with standings in the above classes. Only sufficient names have been placed on the waiting lists to care for expected requirements for one year.

Examination papers were regraded by officers in the Enlisted Personnel Division, Bureau of Navigation. Any changes in relative standings of candidates examined by Fleet boards is due to such regrading.

The waiting lists mentioned above are published in this bulletin.

Additions to Waiting Lists for Chief Petty Officers (Except for Chief Pharmacist's Mate, which will be published later).

FORGED PAY RECEIPT.

Recently a case has arisen at a Receiving Ship of a forged pay receipt; the man against whose account the money was issued actually being on leave at the time of issue. Eventually, the man on leave returned to the ship and the fact that some person had drawn \$40.00 against his account on a forged pay receipt developed.

The forged signature had actually been witnessed by a commissioned officer, as required by regulations. The fingerprints on the back of the pay receipt had been so smudged, and undoubtedly this was intentional, that the prints were of no use for identification.

The disbursing officer requested the Secretary of the Navy to be relieved of the \$40.00 suspension, but the Bureau of Supplies and Accounts recommended against the issuing of a certificate of relief.

It was finally held that the responsibility for the genuineness of the signature of the payee is placed directly on the witnessing officer under the Navy Regulations and that the responsibility for the payment on the forged pay receipt rests with that witnessing officer.

PERSONAL MAIL - IMPROPERLY ADDRESSED.

All ships' personnel should impress upon their correspondents the necessity of including the ship's name or exact unit when addressing an individual.

That many have failed to do so is indicated by the large amount of mail, intended for individuals on ships, but which is being improperly addressed to the various yards and shore stations.

Much of this mail must be returned for better address, causing delay in delivery, as well as necessitating additional work at the post offices and shore stations.

It is particularly desired that mail for men in ships under overhaul at yards, or for men in ships or units based at shore stations, include in the address the name of the ship or unit to which the man is attached.

SCHOLARSHIP AT RENSSELAER POLYTECHNIC INSTITUTE.

Applications for the scholarship at the Rensselaer Polytechnic Institute, announced in Bureau of Navigation Bulletin No. 246, to be awarded to the son of an officer on the active, retired list, or a deceased officer of the Navy or Marine Corps, should reach the Bureau of Navigation not later than 15 July 1937.

The following should be submitted with the application of the candidate: certificate from high school or college showing complete scholastic record, information regarding extra-curricula activities, and a small photograph or snapshot of candidate.

AMENDMENTS TO BY-LAWS OF NAVY MUTUAL AID.

All proposed amendments to the By-Laws of the Navy Mutual Aid Association have been approved by majority membership vote and become effective on 15 April. Since each member is in possession of a copy of these changes, new By-Laws will not be printed at this time pending action by the Board of Directors on a proposed plan to provide paid-up insurance for members who are retired from the service prematurely or who no longer require high protection.

DECEASED ENLISTED PERSONNEL.

The following is a list of enlisted personnel who died during the period, 12 to 31 March 1937, inclusive:

DUNLOP, Samuel George, M.M.2c, U.S.N. Died 25 March 1937, U.S.Naval Hospital, Chelsea, Mass. Next of kin, wife, Mrs. Mildred Lee Dunlop, 4267 36th Street, San Diego, Cal.

ESHELMAN, Ernest Albert, Seaman 2c, U.S.N. Died 21 March 1937 at Tacoma, Wash., while on liberty from the U.S.S. NEW MEXICO. Next of kin, father, Mr. Harold W. Eshelman, Wolcottville, Ind.
